**Live better, it's easy!**

# «Simplicity is genius»,

– This is what we say about things that can easily change our lives for the better.

We are used to having refrigerators, running water and fountain pens, things that were innovations in their day, and which changed our daily lives. Today transforming your interior with laminate flooring can be as simple as using a vacuum cleaner. Lighters, toothbrushes, cameras, these are all things, just like Floorpan laminate, which have proven that change for the better can be found in simplicity.

To inspire you to make positive changes to your life, we offer you our special collections: a collection of stories about useful inventions, and the KASTAMONU Floorpan laminate flooring collection. We believe that living better is easy and we are here to help you achieve this.

Canyon Black Oak

# Dry all round

Having got his jacket dirty with rubber when testing, the chemist Mackintosh's attention was drawn to the waterproof properties of the fabric. This discovery enabled him to create the famous waterproof rubber mackintosh and rubber boots.

Luanda Oak

FP38

# Join together

The stapler made especially for King Louis XV of France did not remain the preserve of the elite, but become popular among ordinary people. After all, an effective device for stapling sheets of paper is not only useful in palaces.

Wellington

FP39

# Do it yourself

Although King Camp Gillette invented the world's first safety razor back in 1901, men did not immediately appreciate how useful it was. It took several years for wearers of moustaches and beards to start shaving themselves, instead of going to the barber.

Palermo Oak Classic

FP40

# Nothing extra

Scissors, without which hair salons would be unimaginable, first appeared in ancient Rome. However, in those days they were not used to create beautiful hairstyles, but rather for shearing sheep.

Algerian Oak Cream

FP41

# Splendidly fixed

After years of military service, tape, which was previously used to protect ammunition from the effects of water, suddenly gained popularity among the civilian population. If anything, anywhere broke, tore off, smashed or was in need of repair, tape would come straight to the rescue.

Everest Oak Light

# A very different matter

Umbrellas were originally carried as protection from the hot sun. And only in 1750 was the umbrella first used to shelter from the rain, by an Englishman Jonas Hanway. We follow his example to this very day.

Oak Harold

# Walk more

Flip flops are referred to as “Vietnamki” in Russia, but in fact they have Japanese roots. In Japan, they are called “Zori” and are not worn on bare feet, but with cotton socks, with a special thong between the big and second toes.

Pine Helga

FP701

# Very durable

In 1867, Samuel Fay suggested an original method for attaching clothing labels - with a wire spring. For years, the invention was not popular, until finally at the end of the 19th century people started to use it in the office to fix sheets of paper together instead of sewing pins.
